New David Burpee Zinnias

The flowers are of a form never before seen in zinnias; they may be likened to a large flowered chrysanthemum, so attractively curled and quilled are the petals. The size of the flowers is tremendous, and not only are they extremely broad, but they are unusually deep. Flowers measure up to 6 in. across and from 4 to 5 in. in depth, with cutting stems averaging 18 in. in length.

Another outstanding feature of these zinnias is the unusual range of colors, many that have never been seen in zinnias before. Pastel shades predominate, such as apricot, soft cream, chamois, buff, terra-cotta, burnt orange, soft rose, and peach. Many of the flowers contain exquisite blendings of two and three colors.

The plants grow about 3 ft. tall; some have leaves which are attractively curled and quilled like the petals on the flowers. Fine for general garden use and especially suited for cutting.

Burpee's Red and Gold Hybrid Marigolds

Hybrids between African and French Marigolds

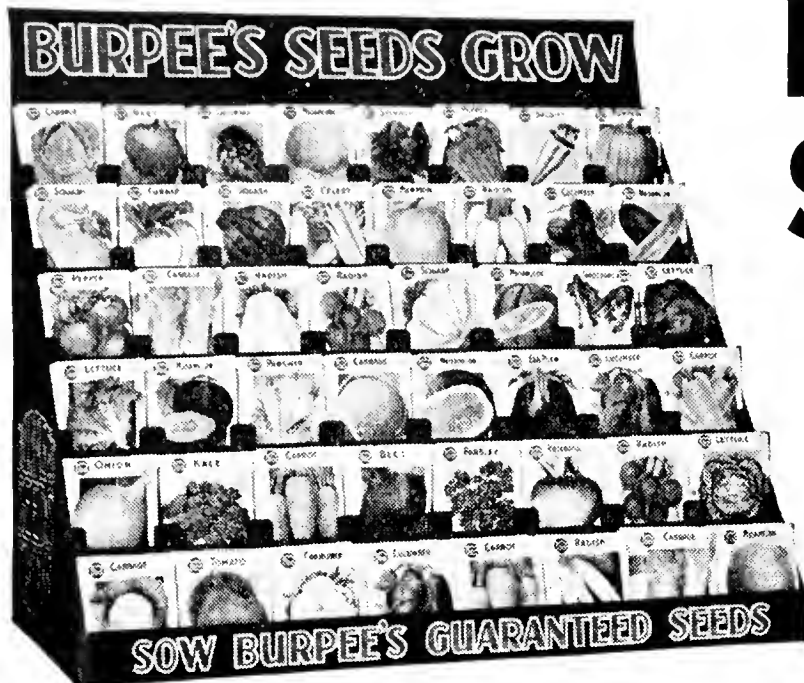

Burpee's Red and Gold Hybrids are the liveliest colored and most outstanding of all marigolds. Some flowers are solid red others are delightful combinations of red and gold. They vary in color according to season and even in different flowers on the same plant at the same time. At times they are almost pure golden-yellow and at other times bright rich mahogany-scarlet. They are extremely double, 2½ to 3 in. across, nearly three times the size of the largest double French Marigold.

Red and Gold Hybrids are the earliest of all marigolds as they come into bloom in less than eight weeks from seed. The plants are more profuse blooming and will continue to flower over a longer period of time than any other marigold, in fact, they have flowered continuously for more than seven months in the open garden. Plants grow 1½ ft. tall, 2 ft. wide, and are literally covered with flowers at all times.

Giant Ruffled Sweet Peas

Most Beautiful of All—Originated on Burpee's Floradale Farms

Giant Ruffled Sweet Peas are Burpee introductions, developed on Burpee's Floradale Seed Farms in California. They are distinguished by the unusual duplexness and extra frilliness of the flowers. This gives a double appearance to the large, waved and ruffled flowers which makes them so distinct. They are greatly admired wherever seen and have won the highest honors in the keenest competition.

Glamour Girl

3546 Glamour Girl (New)

Gorgeous new color in Giant Ruffled Sweet Peas—an exquisite soft shade of light fawn-pink. Plants are extremely vigorous and bear their large, beautifully formed flowers on very long, stout stems. The softness and delicacy of its color is further enhanced when seen under artificial light.

Burpee's Early Flowering Sweet Peas

Varieties are arranged in each color class from deep to light shades

Burpee's Early Flowering Sweet Peas come into bloom 3 to 4 weeks earlier than the Summer Flowering varieties offered on pages 31 to 35. They are especially adapted for growing in frost-free sections and for earliest blooms outdoors in the North, and also valuable for winter flowering under glass. They are being planted more and more every year.

If you live where the late Sweet Peas have not done well, have your customers try the Early Flowering. They will bloom before the summer heat arrives. Sweet Peas do best in cool weather. If seed was not sown in the fall, it should be sown as early in the spring as the ground can be prepared in an open, sunny location, and deep rich soil which must be well drained.

Burpee's Sweet Peas are famous the world over as the "Best That Grow." The flowers are extra large, of perfect form and texture, well placed on long, strong stems, and usually produced in sprays of four.

1/2 lb. or more of any named Sweet Pea listed may be ordered at the lb. rate

We have marked with a star (*) the varieties that we particularly like in each color class; if you are in doubt as to which to choose, make your selection from those thus marked. All are lovely and each has its own merits; you would not make a mistake in planting any of them.
